BIO

John Reburn is from New Albin, Iowa and graduated from the University of Northern Iowa in May of 2017. After graduating with a degree in Finance and Real Estate, John knew he wanted to enter the Agricultural Industry. John developed a passion for farming while growing up in rural Iowa and working on a farm throughout college.

John's primary focus is helping clients acquire and sell land. Using Peoples Company's land database and platform, he has access to every farm for sale on the market and multiple off-market properties to provide clients acquisition opportunities. The Peoples Company land database also provides the most recent sale information to keep clients well informed on the land market.

John is an active member of the Iowa Army National Guard and enjoys hiking, hunting, and fishing during his free time.
